Flat

Angled

Modern, Bright & Highly Energy Efficient

- Best Advertising display in takeaway shops, cafes, restaurants, hotels, pubs, supermarkets.
- Menu displays are manufactured from PVC and Dibond (aluminium composite panel), which are safe over a heat source.
- Our design team is ready to assist you with designs, colour and layout of your unique menu.
- Easy to open and install, convenient to change artwork
- Bright uniform lighting without glare.
- Environmentally-friendly and energy saving with a life span of 50,000 hours
- Compared with traditional lighting box, it can save you more than 70% energy.
- On average £80 cheaper to run than fluorescent tube light boxes.
